The Chinese University of Hong Kong

“Hong Kong Public Opinion & Political Development”
Opinion Survey
Comparison of Survey Results

May 2020

Results Comparison

【In order to enable the sample to reflect more closely the characteristics of the Hong Kong population, all data in this survey were weighted against the gender-age-education distribution of those aged 15 or above released by the Census and Statistics Department. Due to the process of weighting and rounding off of decimal place, the sum of individual items in the tables may be different to the total.】

Table 1: Satisfaction with Central Government’s implementation of “one country two systems” in Hong Kong
